WILLIAM EARL CRUM

Nature

As a fond mother, when the day is o'er,
Leads by the hand her little child to bed,
Half willing, half reluctant to be led,
And leave his broken playthings on the floor,
Still gazing at them through the open door,
Nor wholly reassured and comforted
By promises of others in their stead,
Which, though more splendid, may not please him more;
So Nature deals with us, and takes away
Our playthings one by one, and by the hand
Leads us to rest so gently, that we go
Scarce knowing if we wish to go or stay,
Being too full of sleep to understand
How far the unknown transcends the what we know.

THE FUTURE

is where you'll spend the rest of your life . . .

We hope you are preparing for it as well as you possibly can — for the future needs young people with knowledge, dedication, energy and ambition.

If your career interests are in one of the many fields so important to industrial growth—engineering, sales management, accounting or business administration, for example—we hope, too, that you will keep an eye on Ashland Oil. Our growth already has been outstanding, but we're preparing for even a greater future.

Dependable service to customers is one of the chief aims of our employees. To be able to do their jobs well, they continually train to keep up with progress in their various fields. Service men attend customer service courses. Betty Newtons take specialized courses in home economics. Other employees go to management development courses and technical seminars. Many employees are aided in financing their education through our educational assistance program. Education is a continuing process for our employees.

SET YOUR SIGHTS HIGH!

The world...yes, even the moon...can be yours...
if you set your sights high.

America is entering an era of explosive expansion.
New fields are opening up with startling rapidity.

Start planning now to make the most of your God-given abilities.

Rich rewards...both material and spiritual...await the trained man or woman... Education is available in many places...public schools, colleges, night schools, work-study programs...and through training in industry and the armed forces.

Yes, the future is yours... If you set your sights high and study hard.
